

With so much bombardment around us from the media that delivers messages that tear down rather than build our families up, I would beseech the FCC to look seriously at the need for positive radio format such as K-LOVE provides to both Christian and non-Christian listeners. As a Christian, I praise God that not only K-LOVE, but other Christian format stations are available for me to choose from. When my family is in the car or waking up at home, I know that what they listen to will lift them up and remind them of the beautiful sacrifice our Lord Jesus made for us. For non-believers who listen, the gospel is presented to plant seeds in their hearts, and they too can choose a positive message for themselves and their families. I urge you to take serious thought in the actions that you are considering regarding LPFM. While there are other stations to choose from, K-LOVE had the benefit of continuing to remain a non-advertiser format, providing a non-biased format for listening. Thank you for taking my comments. I pray that God will convict the hearts of those who would finalize decisions to preserve K-LOVE's priority status, and other stations like it.
